HUDSON

Offers these Important Qualities

Special Notice to Fine Car Buyers

Hudson beauty is prized by all owners. It even dictates the choice of many. But to most who know Hudson its chief charm must always be quietness of action and ease of control.

So smooth the response to throttle and wheel there seems no mechanical intervention between the driver's will and its accurate execution by the Super-Six.

What the Old Hudsons Tell

Every day you see Hudsons two and three years old which in both performance and style might well be judged of recent production.

Hudson design has never been guided by caprice. It has never resorted to dubious extremes. It has been too sure of what are the essential permanencies of beauty, dignity, and true riding comfort.

The advance ideas you will always find. But every idea must earn its right to belong. No mere straining after something

new has ever won place for a single feature of Hudson design.

Thus has developed a mechanical quality that well-nigh removes all consciousness of motor and other mechanism.

A New Meaning In Economy

And with it has come an economy in operation that asserts itself not alone in low fuel cost but more particularly in reduced maintenance expense. Owners experience no concern about Hudson's readiness to meet any requirement. Whether it be the instant throttle response needed to shoot the car out of a possible traffic jam, or the ability to go on tour across the continent, the Super-Six in countless ways has proved its fitness. The Super-Six motor is exclusive and everyone knows how it excels.

Best of all, these qualities are not of today's accomplishment. They have been notably Hudson's for five years.

SOUTH SHAFTSBURY

The regular meeting of the Village Improvement society will be held Wednesday evening, June 1, in Cole hall, at 8 o'clock. All members are requested to be present. It is hoped that all who desire to help improve the village will join the society. Don't wait until someone approaches you, but hand in your name now. Everybody realizes what improvements mean in a town, but improvements cannot be obtained without work and money. If we all write, the town will show big results.
